Villa El Rincon · Historic Beachfront Estate on the Golden Mile

Villa El Rincon is a historic beachfront estate on Marbella's Golden Mile, set within an extraordinary gated plot of approximately 11,800 m² with direct access to the Mediterranean. Mature pine gardens, sweeping lawns and expansive terraces create a private, peaceful world just minutes from Marbella's old town, Puerto Banús and the coast's finest beach clubs.

Designed in Andalusian Moorish style by the renowned architect Robert Mosher, a student of Frank Lloyd Wright, the property offers approximately 2,635 m² of built space across four independent residences: a main house, guest house, pool house and separate staff accommodation. In total there are 15 guest bedrooms and 3 staff bedrooms, comfortably hosting up to 30 guests.

Outdoors, life revolves around the water and the sea: two swimming pools — including a heated infinity pool — multiple lounge and dining areas, a barbecue and outdoor dining space and panoramic sea views framed by century-old pines. It is a setting made for luxury retreats, family gatherings and private events.

Inside, features include a private cinema room, gym, sauna, spa and massage room, chef's kitchen, fireplaces, heated flooring and integrated security with 24-hour surveillance. Málaga international airport is around 40 minutes away.

Villa El Rincon is offered for exclusive rental at €80,000 per week.
